INTRODUCING THE ODS TUBULAR MOTOR T06

Ozroll Industries have now included the T06 DC Tubular Motor to our product range and it is available NOW!

Part Number: 15.140.000

The T06 is a slimmer design (35mm tube) with power equivalent to 6Nm, providing a lifting capacity of approximately 10kg. The motor has been designed to be used with the E-Port 18650 Controller and the old style ODS Control 10

The T06 provides an excellent alternative to our current L10 Mech

(although there will be a minimum width requirement) and has all of the major feature and benefits of the T20.

Specifications:

| | |
|------------------------|----------|
| Nominal Torque Rating | 6Nm |
| Nominal Voltage | 12V DC |
| Nominal Speed | 16 RPM |
| Max Operating Current: | 2.3 Amps |
| Diameter | 35 mm |
| Length | 556 mm |
