

## **AR 400 SLAT PROFILE – NEW PACK SIZES**

Ozroll Industries would like to advise that our AR400 series slat profile will no longer be available in pack sizes of 232 metres - our maximum pack sizes will now be 174 metres.

(The image pictured is of our old 232 metre pack)

This change was made in accordance with Occupational Health, Safety & Welfare regulations regarding weights and sizes that can safely be lifted above head height and will reduce the risk of serious injury.

Please contact your sales representative or the Ozroll Industries office if you have any queries regarding the pack sizes for our slat profiles.

**1800 OZROLL (697 655)**
