

## WHY CHOOSE SLIDETRACK BLINDS?

- Heavy duty bottom bar supplied as standard with unique locking handle available.
- Fabric is restrained on all four sides to prevent excessive fabric movement and noisy flapping.
- Wide range of top mounting options including brackets or extruded and roll formed aluminium headboxes.
- Wide range of fabric choices, including PVC, most with a 10 year manufacturer's warranty.
- Side Spline is hidden within the guide tracks and shaded to prevent excessive fade.
- Supplied ready to install with Solar, Battery rechargeable, Somfy 240V or manual (spring assist and crank operated) options available.
- Blinds operate well with drops up to 3.5 meters and spans up to 6.6 meters.
- Heavy duty top tube supplied as standard, with unique reducers built in to make fabric tightening simple and effective.
- Special patented mounting channels are available for fixing to circular columns and to angled surfaces.
- 2-5 day turnaround on all standard colours.
- Distribution Australia wide using the strongest of packaging to prevent any time-consuming freight damages.
- 100% Australian aluminium used with marine grade stainless steel fixings – ideal for coastal areas.
- Key lockable bottom bars available.
- Minimal use of plastic components reduces degradation with prolonged UV exposure.
- The bottom bar is held within full length channels on both sides, resulting in a very strong design and no visual wear marks over time.
- Locks can be offset to one side and separate locks can be fitted to both sides of the blind if required.
- Blinds can be sign written at a small cost, perfect for businesses and commercial applications.
- Ozroll blinds are custom made in Adelaide to suit each individual requirement, providing quality and consistency with each job.
